About me

Born and raised in Paris and now based in the United States, I am an architectural designer with a passion for creating spaces that shape human experience. Educated at SCAD and Parsons School of Design, my background blends architecture, interiors, and a multidisciplinary approach to design. Influenced by mid-century architecture, nature, and a curiosity for the unexpected, I believe thoughtful design can positively affect the way people live, feel, and connect. My work combines creativity with organization, leadership, and a deep appreciation for intentional design.
